Business and Enterprise Policy

The Grove School 2018

At the Grove School, we recognise the importance of business and enterprise and aim to create an enterprising ethos throughout the school. Children are encouraged to participate in many aspects of school life through our pupil council, teaching and learning and working in the community. We see business and enterprise as a way to foster and develop core skills in real situations; to enhance pupil's personal and social development and to provide opportunities for pupils to make informed choices and decisions. Business and enterprise opportunities are established throughout the school and vary according to the level of development in each class.

Aims

Through Business and Enterprise education we aim to:

- Develop the core skills of communication, numeracy, literacy, problem-solving and working with others.
- Develop a knowledge and understanding of the world of work.
- Enhance personal and social development.
- Form links with the wider community.
- Foster and develop skills in citizenship.

Objectives

The children will be able to:

- Demonstrate skills in numeracy, problem-solving, literacy and working with others.
- Participate fully in enterprise activities.
- Show a knowledge and understanding of the world of work.
- Make personal contributions and work as part of a team thus improving self-confidence and self-esteem.
- Interact with the wider community.
- Make informed choices and decisions and be able to take action, individually and as part of a team.
