The Equality Act 2010: Schedule 10, Paragraph 3 states all schools must have an Accessibility Plan, reviewed every three years. It is also listed by the Department for Education as a required policy.

An accessibility plan is a plan for:

(a) increasing the extent to which disabled pupils can participate in the school's curriculum,

(b) improving the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school, and

(c) improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled. This must be within a reasonable time and in ways which are determined after taking account of the pupils' disabilities and any preferences expressed by them or their parents.

A disability under the Equality Act 2010 is

"...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities". This definition includes physical disabilities and others with sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer.

The Grove School will make reasonable adjustments, including the provision of auxiliary aids and services, to ensure that we minimise any disadvantage for disabled children and young people. We plan ahead, so thought is given in advance to what disabled stakeholders might require in the future and what adjustments might need to be made to prevent that disadvantage.
