

### Pupil Premium support 2021-2022

We received additional funding of £19,565 for Pupil Premium and Pupil Premium Plus learners.

We used this money to do the following to ensure that these Pupils remained at the same level of all other learners in our school and to ensure that their Emotional well-being is supported, below each statement of impact shown in blue:

-

1. To enable all pupils to have the resources they require for Cookery lessons.  
Pupils have made progress towards ASDAN qualifications in this area and have made progress towards greater independence.
2. To enable pupils to access swimming in our school hydrotherapy pool that requires additional funds to run beyond funds available through the school budget and PE grant, including supporting with the correct clothing. We also have to ensure staff training in the use of the pool that requires additional funding.  
For these pupils they have been able to access additional sessions in the pool post their hip operation in one case and for the other pupil to complete their OT programme in the pool.  
Staff refresher training has taken place to ensure that the pool is covered at all times, we have invested funds in this training package.
3. To support these pupils through paying for additional therapies for them that include Occupational Therapy, Massage Therapy and assess to a Clinical Psychologist to support staff in programme development  
See reports written and outcomes noted, including reports to Governors.
4. To support pupils to access equipment that can enhance their play both indoors and outdoors.  
Equipment has been purchased to that will enable this to happen in school.
5. To use to pay for additional Occupational Therapy support for pupils.  
Additional support has been bought in to ensure that pupils receive the OT that they need to fulfil their potential.
