

The Grove School
Cherry Class Curriculum - September 2023 Cohort

This reflects our 'curriculum plan on a page' format used across school but personalised further for our current Cherry Class. We will continually review this and ensure it develops to reflect the children's progress and needs over time.

Our curriculum is a personalised pathway to learning based on intention, impact and implementation. Learning intentions are assessed using 'I can' statements and updated at least termly. ASDAN programmes and courses are assessed internally, moderated internally and moderated externally as per programme requirements. Life skills English and Maths are taught on a cross-curricular basis throughout all areas of our curriculum.
