

## Action Plan for Science

2024-2025

Overall Aim: to develop pupils' science understanding through outdoor learning environments

Linked to: School Development Plan 2024-25 Objective 3: Every child is enabled to access a broad range of additional activities and experiences.

School Development Plan 2023-24 Objective 5: To restructure the school environment to enhance the learning and physical opportunities for all.

| Intent  | Implementation  | Who is Responsible? | Dates                 | Impact   |
|---|---|---------------------|-----------------------|--|
| - for pupils' engagement and learning in science to be enhanced through outdoor learning environments | <ul style="list-style-type: none"><li>- staff plan for science learning opportunities through outdoor learning environments</li><li>- staff given examples of science through outdoor learning environments linked to the theme plans</li></ul> | LW                  | Sept 2024 - July 2025 | <p>Pupils' engagement in and learning in science is seen through:</p> <ul style="list-style-type: none"><li>- observed sessions</li><li>- book scrutiny</li><li>- discussions with staff to show that pupils have further developed their science learning through outdoor learning environments</li></ul> |
